Akash Dubey

Berkeley Heights, NJ | 212-814-3681 | akash.dubey@rutgers.edu | akeboss-tech.github.io | U.S. Citizen

As a passionate Computer Science, Mathematics, and Quantitative Economics student at the Rutgers University Honors College, I am eager to apply my strong foundation in data analysis, programming, and problem-solving to real-world data science challenges. My experience in statistical analysis, machine learning, and project management equips me to contribute effectively to data-driven projects.

Education

School of Arts and Science, Rutgers University Honors College, New Brunswick, NJ
Graduate Anticipated (Sept. 2024 -May 2027)
GPA: 4.0 • Computer Science and Mathematics

Academy for Information Technology, Union County Vocational-Technical Schools, Scotch Plains, NJ
Graduate (Sept. 2020 - June 2024)
QPA: 97.91 • SAT R&W 780 Math 800

Experience

Rutgers Economics Lab Researcher, Oct. 2024 - Present
- *Analyzed NJ Clean Energy Programs, EV incentives*
- *Synthesized 20+ years of historical data from various sources to extract patterns and create projections of economic funding variables*
- *Researched and created visualizations for the Rutgers submission to the Federal Reserve's College FED Challenge*

Software Engineer for Samaritan Scout, Cranford, NJ, May 2023 - August 2024
- *Created an AI-powered search engine for over 5,000 volunteer opportunities in NJ as well as 8 other states*
- *Used TypeScript and Material UI to connect a web-scraped database of opportunities extracted with the OpenAI API*
- *Aided design team to make prototypes developed code*

Volunteer English Instructor for **English as a Second Language** at The Connection, 79 Maple Street, Summit, NJ, Dec. 2022 - Present
- *Held classes to improve English skills of 50+ adult students in 1 to 5 person groups*
- *Created material and worksheets for other instructors*
- *Developed resources site, natural language-powered English worksheet generator, and ChatGPT-based tutoring site.*

FRC Robotics Team Programming Captain, Academy for Information Technology, Sept. 2022 - June 2024
- *Researched and implemented 4 camera computer vision system, robot simulation, and pathfinding to improve autonomous sensing and capabilities*
- *Trained, managed, and led a programming team of 30+ members to create high-level robot code in Java, web apps for match strategy, and Python programming for misc. tasks*
- *Awarded Autonomous and Dean's List Semifinalist Awards*

Coursework

Current: Honors Calculus IV, Intro to Math Reasoning, Mathematical Theory of Probability, Computer Architecture, Econometrics

Completed: General Chemistry, Physics, Data Structures, Intro to Micro/Macro Economics, Statistics I, Linear Algebra

Demonstrated Skills

American Statistical Association Fall Data Challenge 2023 (StackOverflow Developer Survey)
Placed Top 3 Nationally
Data Analysis, Business Planning, Pandas, Seaborn, Power Bi, Project Management

Road to Silicon V/Alley & Rutgers Entrepreneurial Society TechStart Business Pitchathon
2nd Place
Business Planning, Pitch Presentation, MVP Creation

FBLA Local Business Search Website (State Finalist) and Portfolio-Making App
Android Studio, Business Presentation, Flat File Databases, Web Scraping (BeautifySoup), TypeScript

Mathematical Statistics and Data Sciences Class:
Matplotlib, Seaborn, Scikit Learn, Numpy, Pandas, Google Colab, Jupyter Notebooks, OpenCV, Stereo Vision, Sports Analytics, Tensorflow

Certifications

Oracle Exam 1Z0-811 Java Foundations and Exam 1Z0-006 Database Foundations
Oracle, December 2023

Microsoft Word, **PowerPoint**, **Excel**, **Excel Expert, and Access** 2019: Microsoft, Sept. 2020 - June 2021

Projects

* Available on GitHub

Rutgers Bus Data Analysis, Economic Series and Feature Plotter, Calculus Problem Generator, RAG Chat App, A* and Pure Pursuit Visualizers, Arduino and Raspberry Pi Gadgets, and 3D Racing Game

Languages: Python, Java, C++, SQL, TypeScript, JavaScript, Bash, Kotlin, Git
